

Global Corporate

As the pace of globalisation increases so too does the demand for ever more sophisticated insurance programmes, as major Corporations leverage their global reach to achieve measurable strategic and financial benefits. With representation in over 140 territories around the world Vericclaim has a strong track record in successfully managing global insurance programmes.

Global Corporate 

 **vericclaim**
a sedgwick company

We invest time with each new client to design a claims programme which will enable the client to achieve its objectives including consistency of service delivery, brand protection, indemnity spend, business recovery and timely and accurate Risk Management information.

We understand how global programmes work and we are experienced in the added challenges of communication which global programmes can generate. We understand the different requirements of the stakeholders within such arrangements and we invest time to ensure the Vericclaim service is fully aligned to your requirements.

The Vericclaim service offering includes:

- Global footprint, local expertise
- Central control and governance
- Consistency of service delivery
- Assisting the local business unit with its business recovery plan
- Brand protection
- Indemnity spend and subrogation
- Management of expectations, no nasty surprises.
- Data Integrity - timely and accurate Risk Management information
- Liaison with Insurers, Brokers, Captives and other stakeholders
- Pre loss visits and post loss Risk Management reviews.

OUR SERVICE

Clients can engage with Vericclaim and our global network through various routes:

- **Focal point**
Clients notify claims through a single point of contact by telephone, email or via the web portal. We control service delivery, report style and language and ensure compliance with global service delivery standards. Management information is available for aggregate monitoring or individual Risk Management reports.
- **Local**
We will facilitate introductory meetings in the event our clients wish to access the network on a local basis.
- **Home foreign**
High value, technically complex or politically sensitive claims may benefit from the involvement of our experienced UK adjusters who can either lead the adjustment or support the local network operation.

“Vericclaim have provided us with a consistently excellent level of service in the UK and overseas. The experience, technical knowledge and personal service provided by their adjusters who all seem to go that extra mile stands out for us and we have confidence that in the event of a loss, we will receive first-rate guidance and support from a trusted partner.”
